

Olsson's Ewe Little Beauty Pre Lambing

is a high energy block that supplies glucose to the ewe, assisting in prevention of pregnancy toxemia.

DECONTAMINATION OF BOOMS SPRAY

The Importance of cleaning and decontaminating spray equipment for the application of herbicides cannot be overstated. A poorly cleaned spray tank can lead to crop damage and yield loss. ALL CLEAR DS is especially formulated to remove pesticide deposits and other debris including oily substances from tanks, hoses, booms, transfer and mixing systems , filter screens and nozzles.

We Farewell Stretch

We would like to thank Steven Blacker (better known as Stretch) for his contribution to our Carrs' Seeds Team. Steve finished his role at Carrs' Seeds last week. He learned how to operate the seed grading truck and was literally thrown in the deep end, and ended up knowing the truck like his favorite fishing spots. Steve did a great job on the truck and in the store dealing with animal health, and made friends with customers easily.

We wish him all the best for his future endeavors.
